

Patrick J. Casey
TTX Company

Patrick J. Casey is Vice President, Fleet Management with TTX Company. He is responsible for the planning, acquisition and management for the Company's fleet of over 250,000 freight railcars. Pat joined TTX in 2000 as Director, Forecasting and Planning. He was named Assistant Vice President, Forecasting and Planning in 2005 and assumed his current responsibilities in 2007.

Pat has 36 years of experience in the railroad industry. Prior to joining TTX, he spent 17 years with CSX Corporation. He started his career with Chessie System Railroads in the market research department, later holding positions in forecasting and marketing at CSX Transportation. He then worked for ten years for CSX Intermodal in a variety of marketing and planning positions.

Pat holds a bachelor's degree in economics from Towson University and a master's degree in economics, from the University of Delaware. He also earned the Certified Business Economist™ designation from the National Association for Business Economics. He is a member of the Intermodal Association of North America and the Conference of Business Economists, where he recently served as chairman. Pat has also served on the board of directors for the University of Denver Transportation Institute and for the Railway Supply Institute.
