

**Dr. David E. Altig** is executive vice president and director of research at the Federal Reserve Bank of Atlanta. In addition to advising the Bank president on monetary policy and related matters, Dr. Altig oversees the Bank's Research Division, which includes the Bank's team of economists, the Regional Economic Information Network, and the Bank's Community and Economic Development function. In this role, Dr. Altig leads the Atlanta Fed's research and engagement portfolio on benefits cliffs. He also serves as a member of the Bank's Management and Discount Committees and is the executive cosponsor of the Bank's Working Families Employee Resource Network.

Dr. Altig is an adjunct professor of economics in the Booth School of Business at the University of Chicago. He is currently the vice president-elect of the National Association for Business Economics, for which he served as director from 2016 to 2019. He is also a member of the advisory council of the Global Interdependence Center and serves on the board of the Konstanz Seminar on Monetary Theory and Policy. He has past and pending published research in several prominent professional journals, including the *American Economic Review*, the *Journal of Econometrics*, the *Journal of Monetary Economics*, and the *National Tax Journal*.

Prior to joining the Atlanta Fed, Dr. Altig served as vice president and associate director of research at the Federal Reserve Bank of Cleveland. He joined the Cleveland Fed in 1991 as an economist before being promoted in 1997. Before joining the Cleveland Fed, Dr. Altig was a faculty member in the department of business economics and public policy at Indiana University. He has lectured at several other universities, including the Ohio State University, Case Western Reserve University, Duke University, the University of Iowa, and the University of Wisconsin, as well as in the Chinese Executive MBA program sponsored by the University of Minnesota and Lingnan College of Sun Yat-Sen University.

Dr. Altig graduated from the University of Iowa with a bachelor's degree in business administration. He earned his master's and doctoral degrees in economics from Brown University. He and his wife, Pam, have four children, six grandchildren, and one great-granddaughter.
