

Chandra Kapireddy is joining our leadership team as the Head of Analytics, AI/ML, and Gen AI. Chandra brings over 27 years of experience building and leading world-class data, analytics, and artificial intelligence teams. Recognized for his expertise in change leadership, strategy and execution, team building, and delivering results, Chandra has an impressive track record of innovative solutions and driving substantial business growth within the financial services sector.

Chandra has held key leadership positions at some of the industry's leading companies, including JP Morgan Chase, Capital One, Wells Fargo, Bank of America, Oracle, and AWS. Most recently, he served as Managing Director and Head of AI/ML Products for JPMorgan Chase. Chandra was also a member of JP Morgan Chase's AI executive council, where he played a pivotal role in shaping the strategy, products, controls, and governance across the company. His visionary leadership has driven innovations in cloud computing, data analytics, and AI/ML earning him numerous awards.

Chandra's extensive experience and enthusiasm for cutting-edge technologies will provide powerful leadership in a critical area of our technology future. Please join us in welcoming Chandra to the Enterprise Data & Analytics leadership team.
