Amit Mehrotra is a Managing Director at UBS and Head of U.S. Industrials Research, leading a team of approximately 40 research professionals covering a broad range of industries, including Aerospace & Defense, Chemicals, Machinery, Engineering & Construction, Automotive, Building Products and Airlines. He also leads the firm's Electrical Equipment & Multi-Industry research coverage, with responsibility for companies including GE Vernova, Eaton, Honeywell and 3M. Throughout his career, Amit has been recognized for his research across multiple industrial sectors, earning Top 3 rankings in Electrical Equipment & Multi-Industry, Maritime Shipping, and Airfreight & Surface Transportation in the Extel (formerly Institutional Investor) survey, an annual assessment of research analysts based on feedback from the world's leading institutional investors. Prior to joining UBS, he served as Managing Director and Head of Transportation and Shipping Research at Deutsche Bank, where he was also recognized by Thomson Reuters as the top-ranked stock picker in the Airfreight & Logistics sector.

Amit holds a degree in Finance and Economics from Babson College. He lives in Roswell, Georgia, with his wife, two daughters and their dog, Marley.
